

**CSM INGREDIENTS LAUNCHES CREAMI®:  
A COMPREHENSIVE RANGE OF INDULGENT FILLINGS FOR BAKERY,  
PASTRY AND CONFECTIONERY PROFESSIONALS**

*With a wide range of textures and flavors, Creami® ensures ease of application and optimal performance.*

*The launch is an emblem of the synergies created within Nexture group.*

May 12<sup>th</sup>, 2026 – **CSM Ingredients – a Nexture company** – announces the launch of **Creami®**, a comprehensive range of high-quality indulgent fillings designed to support bakery, pastry and confectionery professionals in creating sweet goods that stand out in terms of taste, texture and overall eating experience. Creami® will be initially available across key European markets, including Italy, Germany, France, Benelux, Spain, Portugal, the UK and Poland, with plans to later expand across other international markets.

The new CSM Ingredients range – developed by combining Sipral’s expertise in high-quality fillings with CSM Ingredients’ knowledge in the artisanal sector – offers a **wide variety of flavors and textures, from smooth and creamy to structured and crunchy**. Creami® enables professionals to enhance their product assortment while ensuring consistent and reliable results. The range includes multiple flavor profiles – from pistachio and hazelnut to cocoa and white chocolate – carefully balanced to deliver an authentic taste experience.

*“The launch of the Creami® range is a clear example of how the integration of different ingredient manufacturers under one unique umbrella - Nexture - is enabling us to leverage and further expand established expertise across new markets and segments,”* said **Valerie Diele-Braun, CEO of Nexture**. *“Following the acquisition of Sipral Group, we started working together with CSM Ingredients’ teams to develop this new range that can now reach bakery and pastry professionals across multiple geographies, supporting customers with versatile, indulgent and easy-to-use products.”*

Designed with flexibility in mind, Creami® solutions are **suitable for filling, layering and decorating applications**, maintaining their **stability and performance across different uses**. The range also includes **bake stable solutions** as well as options formulated to deliver unparalleled texture experiences. Among these, in particular, the two flavors “Crunchy Pistachio” and “Crunchy Hazelnut”

were created by **enriching the fillings with caramelized Kataifi inclusions**, a uniqueness made possible thanks to the expertise of Casa della Mandorla – also a Nexture company, specialized in the production of nuts, dried fruit and pralines.

With Creami®, CSM Ingredients provides bakers and pastry artists with a comprehensive range of filling, layering and decorating solutions, **unleashing new creative opportunities** and transforming every sweet good into an expression of skill, imagination, and exceptional taste. The range reflects the company's ongoing commitment to supporting customers with **smart indulgence** solutions tailored to modern production needs.

### About CSM Ingredients
